GRÜNBERGERLAG

I. Columbina, ad visum delineavit.

Forma Civitatis, International Journal of Urban and Territorial Morphological Studies aims to publish yearly scientific researches in English, characterized by the application of innovative and experimental methods. The covered themes range from urban morphology to the history of architecture, to the theory of form, to survey, to architectural design and restoration, without excluding on the other hand, the studies in the discipline of archaeology. The journal adheres to the Open Access philosophy, as part of a general policy of reducing the cultural divide of the contemporary world, it will be freely accessible online, and available in print on demand technology thanks to the publishing house's kind efforts in Rostock.
